

LACC STEM ENDOWMENT

Make It A Double Campaign

In 2016, Los Angeles City College (LACC) was awarded a \$6 million five-year *Hispanic Serving Institutions (HSI)* grant from the U.S. Department of Education.

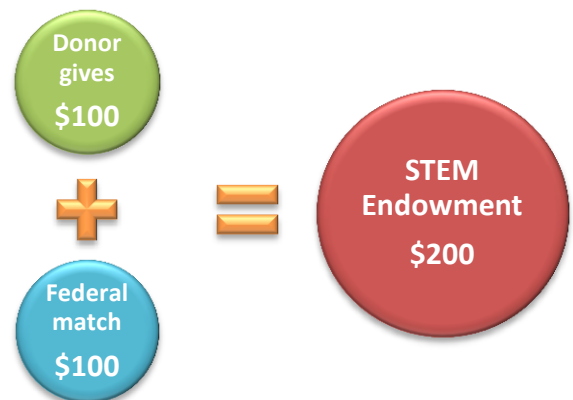

This HSI grant helps provide LACC and its local high school low-income students with the support and preparation they need to transfer and graduate with degrees in the STEM disciplines. This grant will fund the following resources:

- ✓ Dedicated counselor, faculty, peer mentoring and tutoring
- ✓ Early undergraduate research experience
- ✓ Streamlined pathways for high school students to transfer to baccalaureate programs in STEM, through a partnership with CSU Los Angeles
- ✓ Math summer boot camps
- ✓ STEM speaker series
- ✓ Annual STEM day
- ✓ Endowment Match

This is how it works:

To ensure the continued support of these resources for our students the **LACC STEM Endowment** will be established with a matching opportunity of **\$1 million** from federal funds.

Every dollar donated up to **\$1 million**, will DOUBLE creating a **\$2 million** STEM Endowment!

It's as simple as 1+1=2!

Make your donation count...TWICE!
